

Shelton DENTAL CENTER
Post-Sedation Transportation Information

Patient Name _____ Date _____

For your safety, a responsible adult must drive you to and from your dental appointment and stay with you for at least four to six (4-6) hours. **Please advise your driver that they are expected to escort you to the office and wait for at least 15-20 minutes after treatment has begun.** It is best if this person could be available for questions during your treatment. Post operative instructions will be given to the adult that drives you home and stays with you.

Keep in mind that the person you choose to be your escort/driver will be the same person that we will be asking for permission to change care, discussing your treatment with, and giving your post operative instructions to. Please choose someone that you trust and that you are comfortable enough with to share information about your care.

Unless your ride waits for you in the dental office during your entire appointment, you must provide the following information. Without a driver and a responsible adult to observe you upon discharge, **you will be admitted into a hospital for observation and safe recovery at your own expense.**

Driver's Name _____

Driver's Phone (contact # during treatment time) _____

Do we have permission to discuss your dental care with this person? Y N

Alternate Driver _____

Alternate Phone (contact # during treatment time) _____

Do we have permission to discuss your dental care with this person? Y N

Will your escort wait for you in the dental office during your treatment? Y N
and if not, time in minutes for the driver to arrive at the dental office _____ minutes.

Phone where you (the patient) can be reached the evening after the sedation _____.

Thank you for your cooperation.
